The Commission finds that the Applicant has made a meaningful and diligent search of all reasonably available sources at hand to ascertain those parties that are entitled to notice and the whereabouts of those entitled to notice but who were served only by publication. The Applicant gave notice as required, the Commission approves the notice given by mail and publication, and the Commission has jurisdiction of the subject matter and parties.

The well location exception in accordance with the foregoing is necessary to prevent waste and to protect the correlative rights.

12. The Cleveland common source of supply is a targeted reservoir as designated in Multiunit Horizontal Well Cause CD No. 201904376-T.
