INTERIM ORDER OF THE COMMISSION

1. Hearing Date and Place: This Cause came on before an Administrative Law Judge, at 8:30 a.m., on October 21, 2019, Jim Thorpe Building, Oklahoma City, Oklahoma. No protest to this cause was filed or announced before or at the calling of such docket and it was announced at the time this cause was called that Applicant, BCE-Mach LLC, elected to have the merits of this cause reviewed and considered under the optional procedure set forth in OAC 165:5-13-3.1.

2. Appearances: Emily P. Smith, attorney for Applicant, BCE-Mach LLC.

Findings

3. Companion Causes: None.

4. Notice and Jurisdiction: Notice has been given by publication as required by Commission rules and affidavits of publication have been filed. Those owners whose names and addresses were attainable have been given actual notice by first-class mail. An adjudicative inquiry was conducted by the Administrative Law Judge into the sufficiency of the search to ascertain the names and addresses of all owners, and if a diligent effort had been made to locate all affected interest owners. The Commission finds that the Applicant has made a meaningful and diligent search of all reasonably available sources at hand to ascertain those parties that are entitled to notice and the whereabouts of those entitled to notice but who were served only by publication. The Applicant gave notice as required, the Commission approves the notice given by mail and publication, and the Commission has jurisdiction over the subject matter and the parties.

5. Amendments: None.

6. Relief Requested: Applicant requests that the requested off-pattern well be authorized at the following location:

Surface Hole Location: Will be provided at the time of the final hearing.

Location of Wellbore at Completion Interval:

The proposed location of the completion interval will be no closer than 150 feet from the north line and no closer than 150 feet from the south line and no closer than 660 feet

from the east line of the unit comprising said Section 13, Township 27 North, Range 17 West of the IM, Woods County, Oklahoma,

and will be a horizontal well for the Mississippian common source of supply, in the 640-acre horizontal drilling and spacing unit formed in said Section 13, as an exception to Order No. 704663.

The measured depth, location at the end of completion interval, and total depth will be provided at the time of the final hearing.

7. Reason Relief Should Be Granted: To require the drilling of the well at its prescribed location would result in waste because the evidence showed the requested location will allow for a longer lateral, thereby increasing captured reserves and preventing waste, as to development of the named common source of supply in said described lands. Further, the location conforms to the pattern for future development wells in and around the lands involved, to provide the best distribution of wells, thereby maximizing the ultimate recoveries for all such wells.

8. Allowable: The allowable for the well shall be 100% of a normal allowable for the common source of supply named in this Order.

9. Previous Orders: None.

10. Special Findings: None.

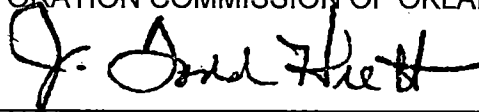

11. Interim Order Reopening: The captioned cause is hereby continued to January 28, 2020, for the presentation of additional evidence concerning the bottom hole location of the well.

Order

IT IS THE ORDER OF THE COMMISSION that the relief requested in the Application, as modified above, is necessary to ensure the greatest ultimate recovery of hydrocarbons from the above-mentioned common source of supply, prevent or assist in preventing waste, and protect correlative rights of interested parties. BCE-Mach LLC is authorized to drill said well as set out herein and IT IS SO ORDERED.

The relief set forth in the Application, as modified above, is granted provided that such well is commenced within one year from the date hereafter or this Order shall be of no force and effect, unless this Order is timely extended.
